

ABOUT RAPTIVITY

Whether you are a trainer, an educator, or a subject matter expert, you can use Raptivity with minimal learning and absolutely no programming to create nearly 200 Interactions and add it conveniently to your eLearning content.

You can continue to use your existing authoring tool, LCMS, LMS, CMS and Live Collaboration Systems without any disruption - simply use Raptivity to add zest to your content, while continuing the use of other tools and systems. The content published by Raptivity can be a single flash file, which can be easily distributed over the Internet, and does not require any proprietary plug-in. Your eLearning material will no longer miss the user interactivities that enhance content learning and retention.

ABOUT RAPTIVITY

"...With Raptivity, I have created interactive presentations and my own professional electronic portfolio. As professor and provider of consulting services, I feel the "sky is the limit", thanks to my recent acquisition of Raptivity."

- Prof. Pura A. Rivera, University of Puerto Rico

"Take a look at Raptivity. 150+ Flash based games and interactions.....I have done a 7 by 7 crossword puzzle in less than 5 minutes with their tool and template." (Quoted from a newsgroup)

- Andrew Selman, Manager - e-learning, GEICO, USA

" With 12 years of e-learning creation under my belt, it is not often I get excited about a new product. With Raptivity, the term 'rapid development' has really come of age. Users can even continue using their existing authoring environment and processes."

- Neil Lasher, Trainer1, UK

- ✓ Single Flash file output
- ✓ Hundreds of ready interactions including games, videos, simulations, animations, surveys and more
- ✓ Additional models via booster packs and TurboPacks

- ✓ Users in Over 25 Countries
- ✓ Already adopted by users in over 13% Fortune 100 companies in less than one year
- ✓ Used by large corporations, educational institutes and government users worldwide
